

TRAN THU HUYEN (MARCUS TRAN)

JUNIOR FULL-STACK DEVELOPER / IT ENGINEER

Java • Spring Boot • Vue 3 • SQL Server • 7 Years in Manufacturing

0907 640 098 • marcus.tran2202@gmail.com • An Phong, Hai Phong • github.com/MarcusTr98

CORE SKILLS

- Production data analysis, reporting
- Process and production improvement
- Quality control, problem solving
- Work standards, training
- Process digitalization, automation

TECHNICAL SKILLS

TESTING BASICS (ENTRY LEVEL)

Manual testing, bug reports • Postman • ngrok • Reading logs

MANUFACTURING IT & QUALITY

MES / ERP • Andon • IATF 16949 • ISO 9001 • 5 Why • Pareto • PDCA

PROGRAMMING & TOOLS

SQL Server • Java • Spring Boot • Vue 3 • Git • Excel/VBA • Office • Google Workspace

LANGUAGES

- **English:** workplace communication
- **Chinese:** basic, learning

EDUCATION

FPT POLYTECHNIC HAI PHONG

College Diploma in Software Development
09/2023 – 09/2026 • GPA **3.9/4.0**

Program completed, diploma pending

KEY ACHIEVEMENTS

- **Golden Bee Award, Spring 2026** – Rank 1 at FPT Polytechnic Hai Phong
- **President of the IT Club**, Outstanding Club

CERTIFICATIONS

- Lean Six Sigma Yellow Belt (2026)
 - ISO 9001:2015 QMS Essentials (2026)
 - Gemini Certified Educator (2025)
 - Java, SQL, Web courses (2024–2026)
- Lean Six Sigma and ISO 9001 via Alison.*

PROFESSIONAL SUMMARY

Nearly 7 years in manufacturing process and quality at Toyota Boshoku Hai Phong (IATF 16949 / ISO 9001), growing from production staff to Production Management Assistant for production data and Kaizen, with a record of cutting waste and defects. Wanting to update my skills and build new digital ones, I went back to school and graduated in Software Development at FPT Polytechnic (GPA 3.9/4.0). I am still early in my IT career, but I learn fast and aim to **digitalize production processes, data and reports**, combining shop-floor understanding with software skills. Looking for Developer, Tester or IT Support roles in industrial-park factories.

IT PROJECT EXPERIENCE

MARCUS STORE – E-COMMERCE PLATFORM

Graduation Project

Team Leader (5 members) & Full-stack Dev • Vue 3 • Spring Boot • SQL Server • AI

Phone store system that digitalizes the whole buying process and shop management.

- **AI shopping advisor:** helps customers choose the right product.
- **AI data analysis:** reads sales data and advises the shop owner.
- **Digital buying:** cart, COD/VNPAY checkout, GHN shipping, order tracking, refunds.
- **Digital store management:** products, SKU/IMEI, inventory, flash sale, warranty, staff roles, reports.
- **Teamwork:** led 5 members using Pull Requests, fixed data-flow bugs across API, database and UI.

FREELANCE PROCESS DIGITALIZATION • 5 PROJECTS

07/2025 – Present

For state agencies, military units and small businesses

- **Task management system:** task assignment, progress tracking, LAN alerts.
- **Device monitoring system:** auto monitoring, real-time logs, alert workflow.

MANUFACTURING & PROCESS EXPERIENCE

TOYOTA BOSHOKU HAI PHONG

11/2016 – 09/2023 (nearly 7 years)

Production Management Assistant • Cutting – Inspection Department

- Supported ~40 laser cutting machines and 400 employees per shift.
- Analyzed production, quality and downtime data, delivered reports and root-cause analysis.
- Used shop-floor systems (MES/ERP, Andon) to track equipment and quality.
- Standardized procedures and training materials for new staff.

15→7

TRAINING DAYS

≈30%

WASTE REDUCTION

<0.01%

CRITICAL DEFECTS

≈50%

INCIDENT REDUCTION

Recognition: 1st Prize, group-level QCC (2018–2021) • Outstanding Employee

TEACHING EXPERIENCE

TECHNOLOGY TEACHER

10/2024 – Present

- Teach Robotics, STEM/STEAM, programming and AI to students in Hai Phong.
- Teach Microsoft Office and Google Workspace.
